Conscious Discipline

Baby Doll Circle Time

What is Baby Doll Circle Time?

Children require one-on-one connections to thrive. Baby Doll Circle Time is an infant/toddler curriculum (that Pre-K and elementary children can access as well) that helps provide these **necessary connections** for every child without increasing staff time or staff numbers.

How to do Baby Doll Circle Time:

Baby Doll Circle Time consists of caregivers leading young children and their baby dolls in fun, engaging activities in a circle time setting. Caregivers also conduct these same interactions with each child individually. With this two-pronged system, the child **re-experiences the connection** with the caregiver whenever they play with their baby doll.

@ConsciousDiscipline

Benefits of Baby Doll Circle Time:

1. Reduces the stress of out-of-home care by **creating healthy attachments** and improving the quality of caregiver-child relationships.
2. Increases **the positive affect and joy** between caregivers and children.
3. Utilizes attachment, attunement, and social play to **wire the brain** for optimal development.

Updates

Please help us welcome Mrs. Sylvia as Carmel Mountain Preschool's newest Assistant Director! Mrs. Sylvia will finish the school year in her class and join us in the office starting June 13, 2022.

Sylvia originally joined the CMP team as a toddler teacher in 2012. She went on to finish her degree and raise her very young children. Sylvia returned to CMP in 2018 as an office assistant and then taught a Pre-K class for us this school year.

A decorative border surrounds the page, featuring stylized leaves in black and green, and flowers in orange and pink. Some flowers have small black dots in their centers. The border is composed of various shapes and sizes of these elements, creating a whimsical, autumnal frame.
